

Hello, Please do not change the "Do-Not-Call" laws! Since signing up on the list I have enjoyed not being interrupted during meals, while working around the house, and enjoying precious time with my family. I always felt unsolicited phone calls from anyone, even businesses that I currently have dealings with, as an intrusion of my privacy. As far as I am concerned I would not want any changes to the existing law. If anything I would welcome a do not call registry for small businesses. I am unbelievably frustrated at my business when I get unsolicited telephone calls from anybody. Work or home, I don't even listen to what they have to say! I politely say goodbye and hang up. What a nuisance! Please don't let anyone "water down" the existing law!!!!!!
Thank You for reading this.
